

Assembly Instructions for Timber Square Arch

Tools Required:

- Phillips Head Screwdriver and/or Screw Gun
 - Tent Pegs or Weights (for outdoor use)
 - *Recommended: 2 people for assembly and setup*
-

Step 1: Organize the Parts

1. Lay all parts of the arch on the floor as shown in the reference photo.
-

Step 2: Join the Top

1. Use **4 bolts and barrels** to securely connect the horizontal parts **A** and **A** across the top of the arch.
-

Step 3: Assemble the Sides

1. Take one side of the arch (e.g., left side).
 2. Use **4 bolts and barrels** to connect the Vertical part **A** and **B**.
 3. Next, use **4 bolts and barrels** to connect the vertical part **A** and Horizontal part **A**.
 4. Use **8 bolts and barrels** to connect part **C** into the corner of parts **A** and **A**.
 5. Repeat this process on the opposite side to assemble the second side of the arch.
-

Step 4: Attach the Base Plates

1. Place the **base plate parts (E x 1) and (D x 2)** on either side of part **B**.
 2. Stand the arch into the slots on the base plates **(E)** (*assistance will be needed for this step*).
 3. Ensure the base plates are positioned correctly, with screw holes aligned for secure attachment.
-

Step 5: Secure the Base Plates

1. Using the screws, attach part **D** to part **B** with **1 screw on each side**.
 2. Using the screws, attach part **D** to part **E** with **1 screw on each side**.
 3. Repeat steps 1 and 2 on the opposite side to fully secure the arch to the base.
-

Step 6: Stabilize the Arch

1. For outdoor use, secure the arch to the ground using **tent pegs** or **weights**.
 - *Important: Outdoor use is not recommended in windy conditions.*
-

Additional Notes:

- This arch is recommended for **indoor use**.
- Lightweight construction is best suited for **light floral arrangements** and fabric draping.
- Ensure all bolts, barrels, and screws are tightened securely during assembly for safety and stability.
